

# Certified International Financial Reporting Standards (IFRS)

IFRS-Compliant Financial Statement Preparation

## Introduction

Delegates gained a thorough grasp of International Financial Reporting Standards (IFRS) from this Certified International Financial Reporting Standards training course. Along with increasing their knowledge and comprehension, delegates will also develop their accounting abilities, becoming capable of recording transactions and creating financial statements that adhere to IFRS, guaranteeing legal compliance and enhancing company governance.

In accordance with the needs that have been determined, the training session will also provide an overview of the IFRS that are most pertinent to your organization. Delegates will therefore be able to impart information and abilities for the sake of their organization.

**The following will be covered in this Course N Carry Certified International Financial Reporting Standards (IFRS) training course:**

- The purpose and reach of IFRS
- The argument in favour of IFRS and recent changes
- The primary accounting principles and ideas
- The most significant IFRS regulations that apply to your company
- The process of preparing and presenting financial statements using IFRS

## Objectives

**Upon completion of this training program, you will be able to:**

- Observe accounting principles and guidelines.
- In compliance with IFRS, prepare income statements and statements of financial condition.
- Compile and assess the statement of cash flows.
- Asset accounting should follow IFRS.
- IFRS should be followed for accounting for company mergers and strategic partnerships.

## Training Methodology

Through the use of a range of tried-and-true adult learning teaching and facilitation approaches, participants in this Certified International Financial Reporting Standards (IFRS) training course will acquire a complete education on the topics covered by the training course outline. The training course approach consists of interactive exercises, films, group work, discussions, and case studies that are pertinent to your organization. These are intended to guarantee that delegates depart with current understanding of international regulations and processes together with transferable abilities.

## Organizational impacts

**The following will benefit the organization:**

- Use of IFRS in practice
- Ensuring legal compliance in accordance with the newest requirements
- Recognizing the primary accounting concerns the industry faces
- Using IFRS in a way that is unique to their organizational needs
- Supporting corporate governance to lower risk
- Making a more effective contribution to financial decision making

## Personal Impact

**The following will be supplied to the delegates during the training course:**

- Knowledge and abilities to advance your career in the workplace
- The most recent methods and resources to help you in your position
- The capacity to make better-informed choices with the intention of lowering risk
- Enhanced abilities and better judgment to make you more valuable to your company
- The capacity to communicate with coworkers and other departments in an efficient manner about concerns and current practices that impact the oil and gas sector
