

The Difficulties of International Policing

Collaborating in International Collaborations to Examine Transnational Crime

Introduction

For law enforcement personnel and officers who wish to enhance their capacity to look into crimes of all kinds that involve transnational activity that impacts them in any manner, this Course N Carry The Difficulties of International Policing training course is a great option. It will help you and your organisation keep one step ahead of criminals operating on the international scene by identifying law enforcement agencies and other partners that can help deliver effective cooperation and collaboration. From drug importations and human trafficking to the smuggling of illicit tobacco and aiding citizens who have been victims of crime abroad, it will provide crucial insights and workable solutions to the various challenges that are frequently faced.

Objectives

Participants in this Course N Carry training course will be capable of the following by the end:

- Determine the best practices for investigating any crime investigation that has an international component.
- When working in a global setting, be aware of and respectful of the legal frameworks both domestically and internationally.
- Emphasise how crucial it is to choose and collaborate with the right international partner organisations.
- Recognise the procedures and routes for exchanging information and presenting proof in international criminal investigations.
- Describe the best ways to work together and cooperate with other foreign

Training Methodology

We use multiple methods to equip students with the skills and knowledge. This includes online lectures, self-paced assignments, and exploration of case studies. Further, to help simplify the understanding of the principles, we use visual presentation. We also conduct role-playing sessions to help students apply the knowledge to the real world.
